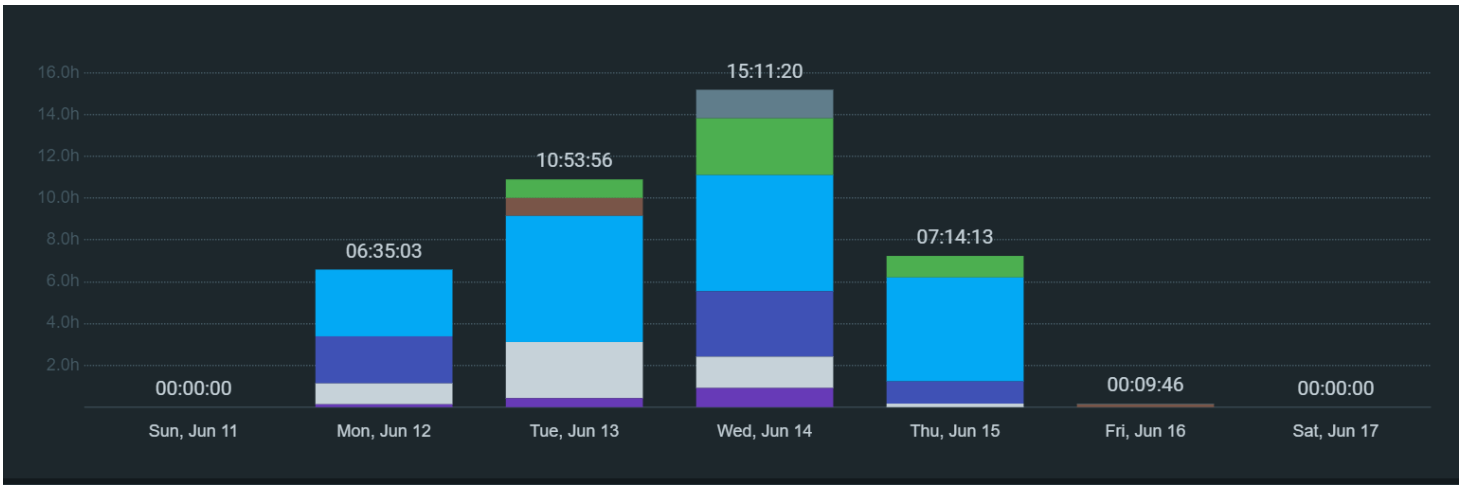
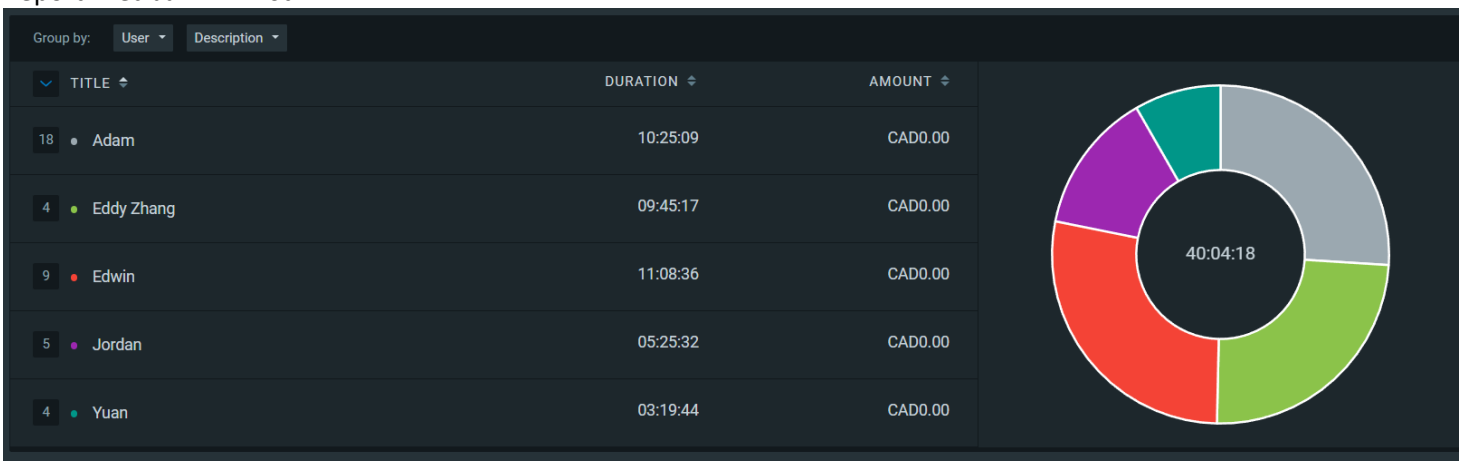
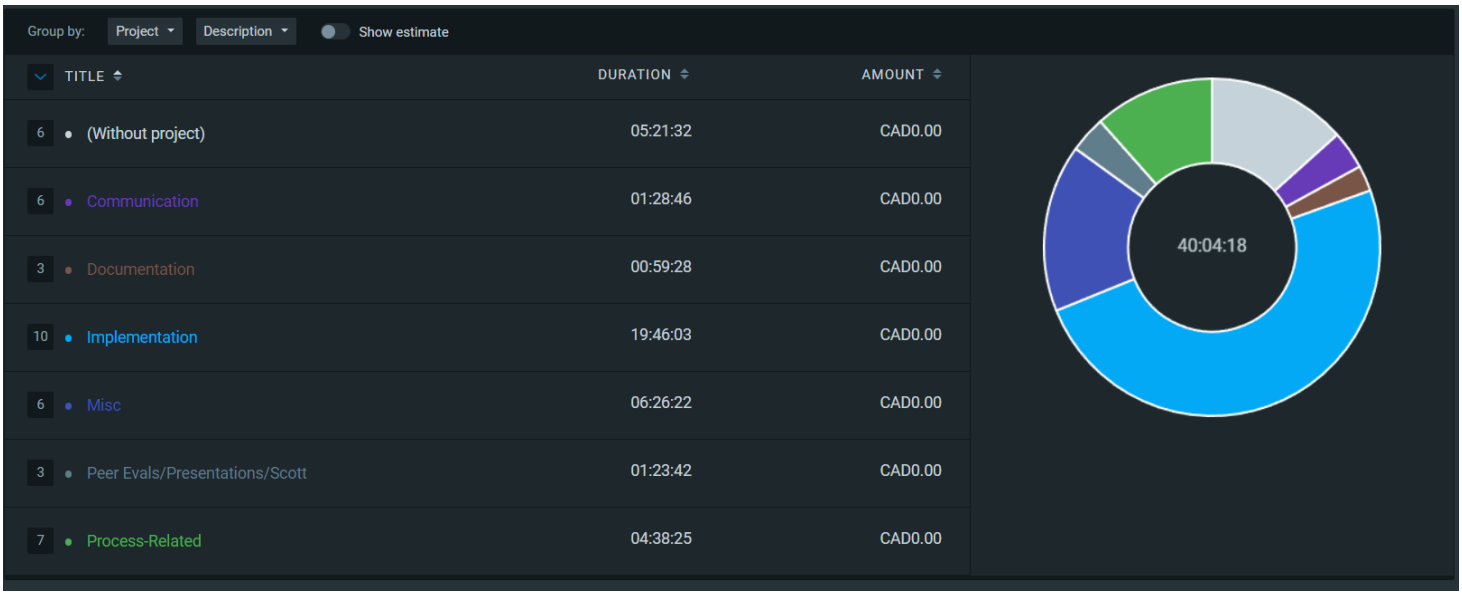
Summary Report



Horizon Scheduling Board

Report Wed Jun 14 - 16th

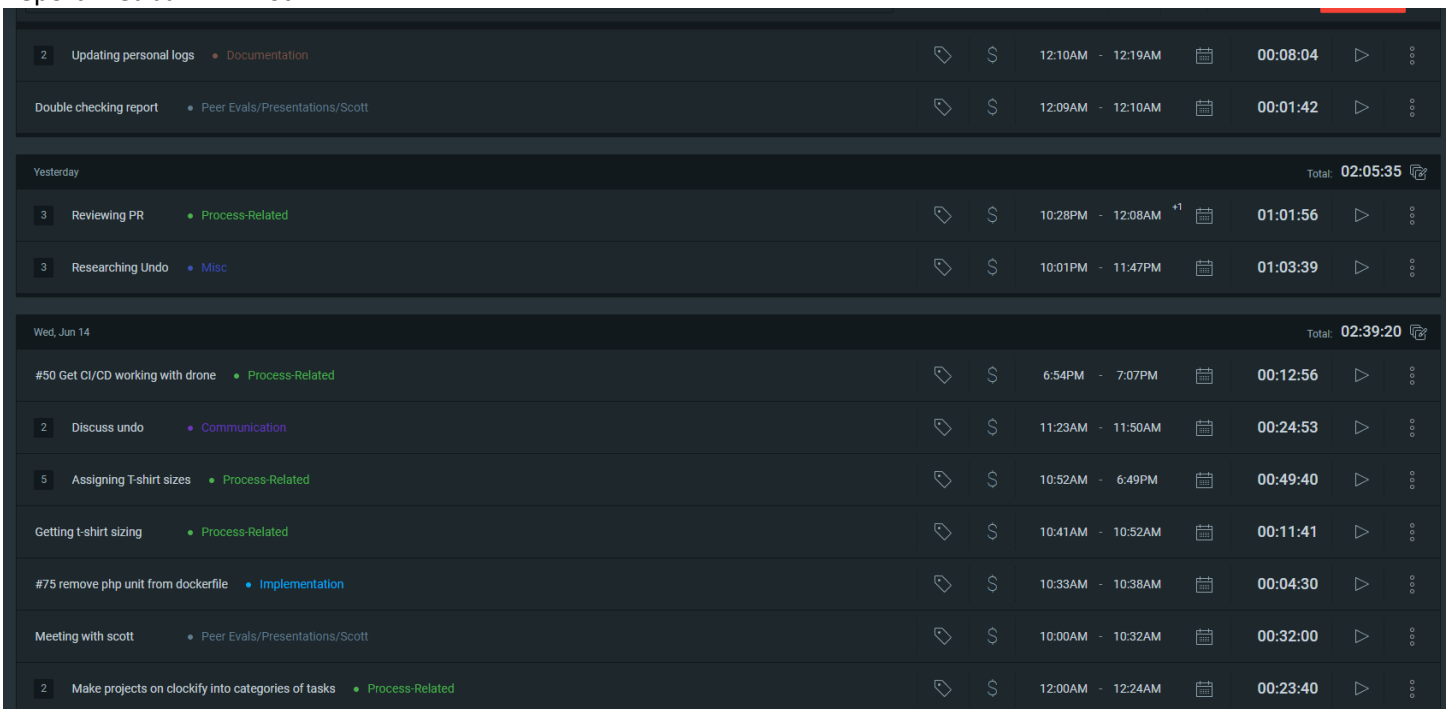




Adam

Horizon Scheduling Board

Report Wed Jun 14 - 16th



<u>Thurs June 15th</u>

overall time spent: 2.5h

- Reviewed a couple pull requests (1h)
- Researched more into an undo feature (1h), thinking about doing a command pattern with a stack of commands stored on the server
- updated personal logs and edited biweekly report

<u>Wed June 14th</u>

overall time spent: 2.5h

- Had team meeting with scott (0.5h)
- Assigned t-shirt sizes onto most of the tasks on the kanban board (while consulting team members)
- Discussed how undo would work, some progress was made
- Tried to start using CI/CD with drone, but suffering authentication issues - ROADBLOCK

team design discussion • Misc	Add tags	-	$	Eddy Zhang	10:31AM 11:40AM 06/14/2023	01:09:00

Wed, Jun 14 - 4 hr

- Team meeting and discussion after lecture time
- phpunit dependency setup, was following the tutorial Scott sent to Adam
    - phpunit stopped working if switch to another branch and switch back to the test setup branch
    - couldn't establish a connection to our web-server, says can't find driver

Thu, Jun 15 - 1.5 hr

- Phpunit dependency setup in docker
    - referred to another source, set up the phpDockerfile -Fixed LoginTest
    - relative path related issues in phpunit -Fixed LogoutTest
    - relative path related issues in phpunit
    - 'Cannot start session when headers' issue, fixed by run in seperate process
