Horizon Scheduling Board

Report Fri Jul 7th (reflect work Jun 30 – Jul 6)

Please note that the burnup chart is not as accurate as our progress.

Completed Tasks

	Create Presentation #26	AdamFipke, Jord...	Done
	Import csv back-end #64	trtin1	Done

test logs

	Edit page buttons and employee overlay #117		Done

Rewrite/add to WBS #14

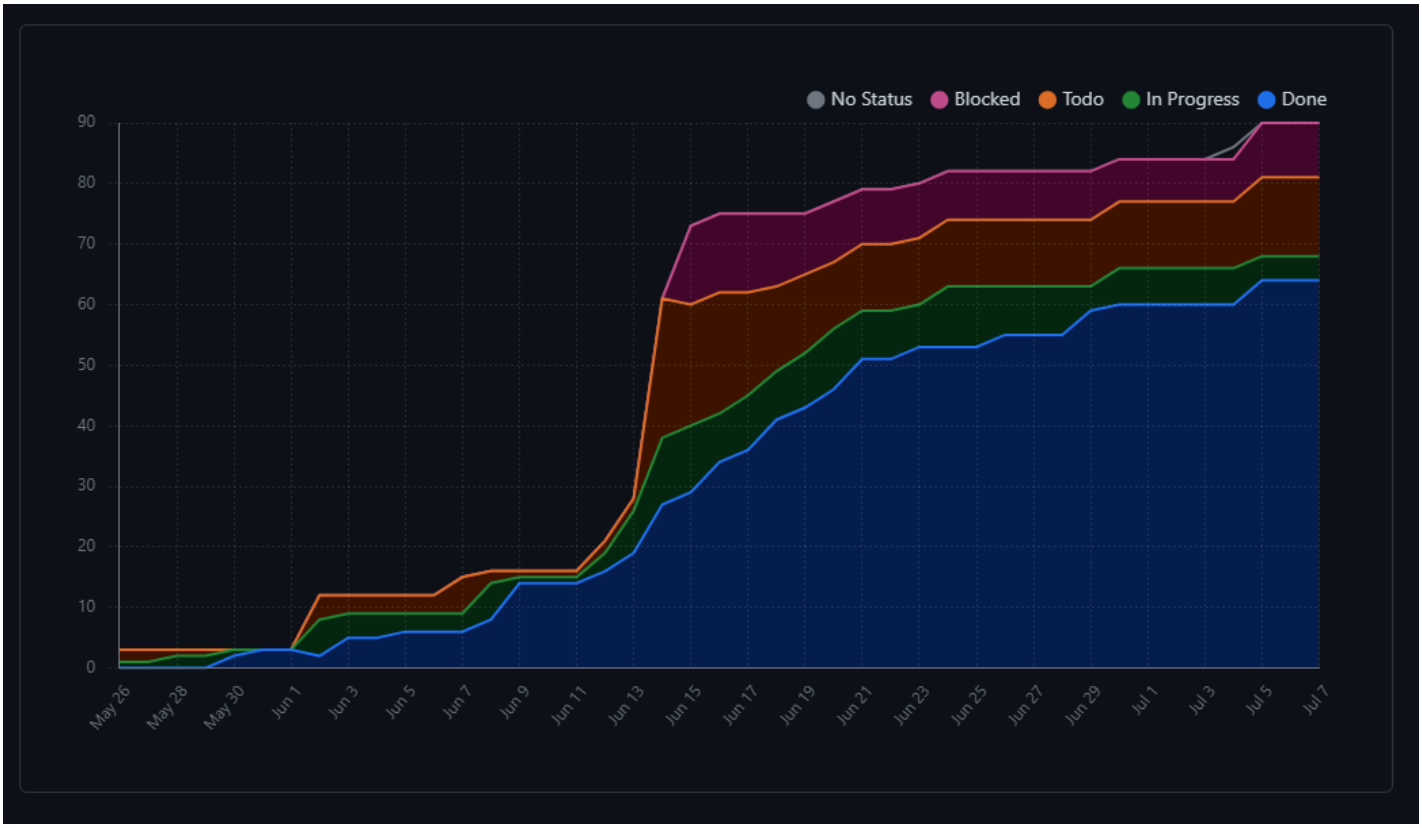
Updated some of the requirements that were outdated

2	Employee details page - Styling #86	JordoRob and Zecr	Done
3	Edit employee details #59	Zecr	Done
4	Employee details page - Generator creation #87	JordoRob and Zecr	Done
5	Employee details page - HTML framework #85	JordoRob	Done

In Progress

1	add employee test #48	trtin1	In Progress
2	Add employee overlay #136	JordoRob	In Progress
3	Add employee - Framework + Styling #127	JordoRob	In Progress
4	Edit Projection Number #54	yuan-yz-z	In Progress
5	Move employee from active to inactive/scho... #142	Zecr	In Progress
6	Add Job Overlay Window - Framework + Sty... #100	AdamFipke	In Progress
7	Dark mode #145	JordoRob	In Progress
8	Styling #160	Zecr	In Progress

Burnup



(Note: this is to July 7th and the plateaus are not actual plateaus, we just have branches/issues that are way too big)

Thurs July 6th
overall time spent: 8h

- Got some good progress converting my add job from using bootstrap to using the new styles (1.5h)
- Reviewed PR #136 (big one. employee picture upload. dealt with files)
- Discussed whether to do a warning message or have the modal save when it gets closed on accident
- Organised and made more tasks on the kanban board
- Went through and organised the categories of time of team members on clockify (10m)
- Researched how to get the form validation niceness of bootstrap without all the other stuff (2h) - no success so far
- Updated personal logs

Wed July 5th
overall time spent: 4.5h

- Did MVP Presentation. I covered most of the process stuff
- Had another client meeting where we showed them our MVP. Got some good feedback regarding a few things. No big requirement changes
- Organised and made more tasks on the kanban board
- Reviewed PR #146 (small)

Tuesday July 4th
overall time spent: 10h

- Filled my section of the new WBS
- Reviewed PR #131, #133 (both were large)
- After reviewing PR #131 (which was based on a feature branch whose PR wasn't merged yet), had discussions about trying to make feature branches off of the main branch, and if you do make a feature branch off of another feature branch, it will not get reviewed nor merged until original feature branch is updated (and you will need to merge any changes from the original feature branch into yours so you don't overwrite any new changes to the original)
- Also had discussions on how to fix branch mess
- Finished making the presentation (including a presentation branch with all our slightly unfinished features)
- Updated personal logs
- Discussed styling differences between bootstrap and the one Edwin chose
- Finished reviewing PR #129 and merged it

- Organised the kanban board tasks more
- Updated some of the requirements that were outdated (added stuff about branches into the process, also updated the projector stuff to TV) - haven't yet merged to main though

Mon July 3rd

overall time spent: 4.5h

- Re-made the WBS to add more tasks and make them more detailed, added a separate columns for actual time spent on tasks, as well as added some more fun statistics to it like days remaining, % completed
- Started the presentation

Sunday July 2nd

overall time spent: 2h

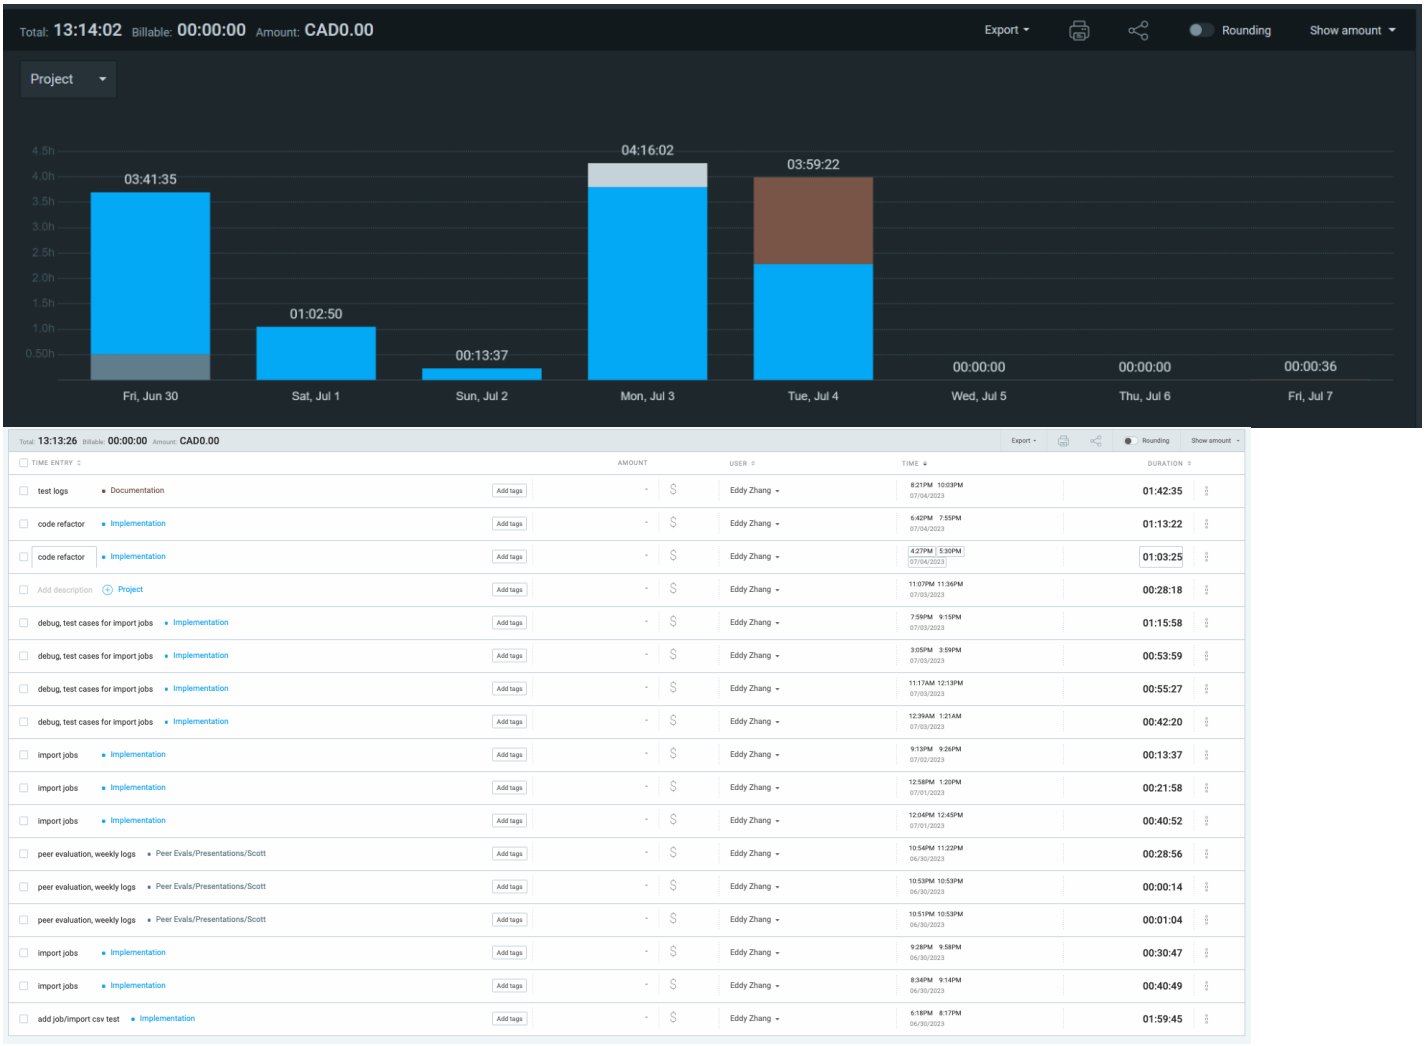
- Reviewed PR #130 and #129 (#129 is a big one)

Friday June 30th

overall time spent: 4h

- Continued work on the add-job overlay to give it working client-side validation (at 200 lines worth so far)
- Updated personal logs and did peer evals

Eddy



Fri, Jun 30 - 3hr 30min

- peer evaluation
- update weekly logs
- working on import jobs csv, got basic stuff working

Sun, Jul 2 - 1hr

- Debugging import csv

Tue, Jul 4 - 4hr

- Made the test logs
- code refactor and debug

Edwin
