## Adam

Overall let's say 6 cards done

Tues July 25th

overall time spent: 4h

- Finished writing email for IT guy
- Reviewed PR #248, #244 more (both are basically ready to merge, just waiting on drone)
- Started Reviewing PR #245. It was accidentally merged into master without a code review and it unfortunately reverted some changes from other branches, so I had reverted the branch for now

- Updated personal logs
- made report

Mon July 24th

overall time spent: 2.5h

- Started reviewing PR #244 (auto-refresh), including bug fixes, new comments, and adding a countdown timer

Sat July 22nd

overall time spent: 0.5h

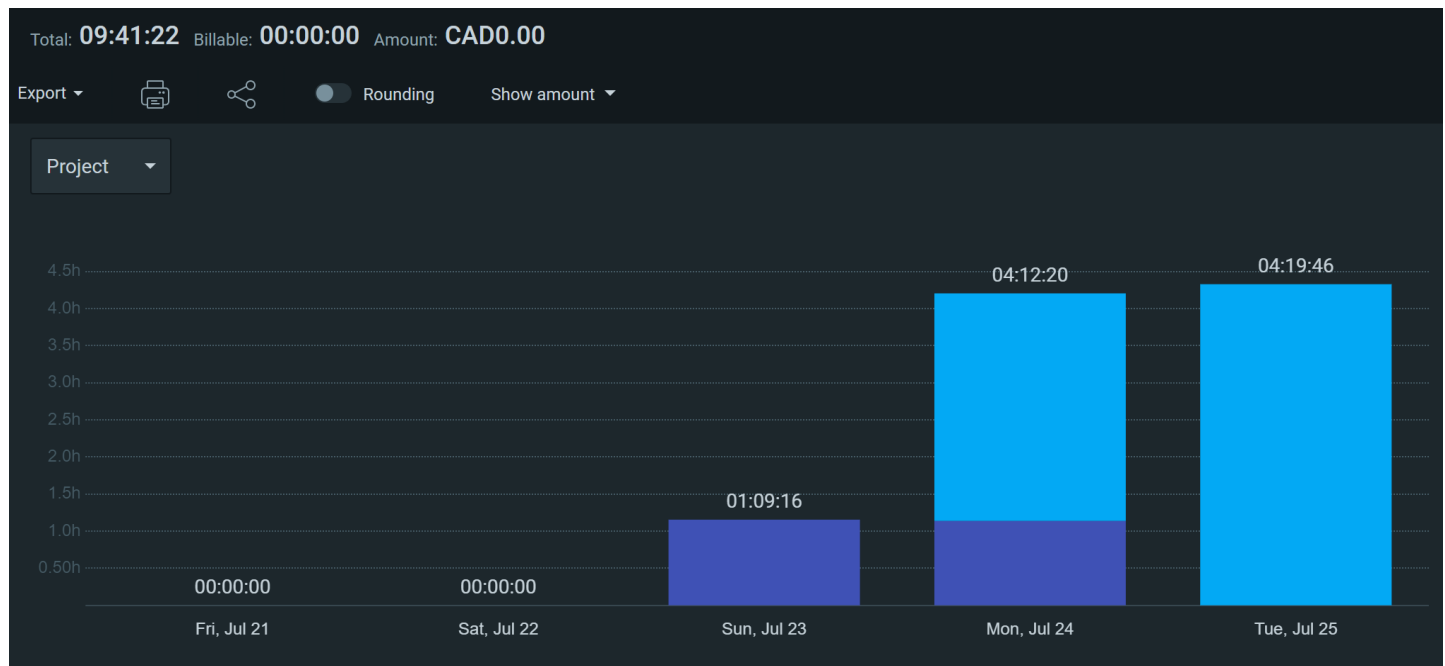

- Started writing an email reply to the IT guy mentioning the problems with having docker run within Hyper-V

Friday July 21st

overall time spent: 4.75h

- Meeting with TA, discussed how to go forward with talking with the IT guy
- Finished reviewing PR #136, #241, #235, #214, and load backup -> all of which got merged
- discussed some button styling and how to do asynch updates with jordan and edwin
- Peer evals

## Eddy
