Adam

- Tues July 11th
- overall time spent: 8h
- Reviewed PR #136 more
 - Finished styling add job, it now looks pretty presentable (error messages also show correctly). Also added a hint for inputting dates
 - Fixed the start date on the job page always showing as today.
 - Added some visual indicators for the start and end date, as well as days after the end date on the outlook
 - Jobs now show a better-formatted version of their start month and end month (plus will only show year if it's different than this year)
 - Updated personal logs
 - Make Report for Scott

Mon July 10th

overall time spent: 0.5h

- Reviewed PR #136 more

Sun July 9th

overall time spent: 0.5h

- Reviewed PR #169, #136 more

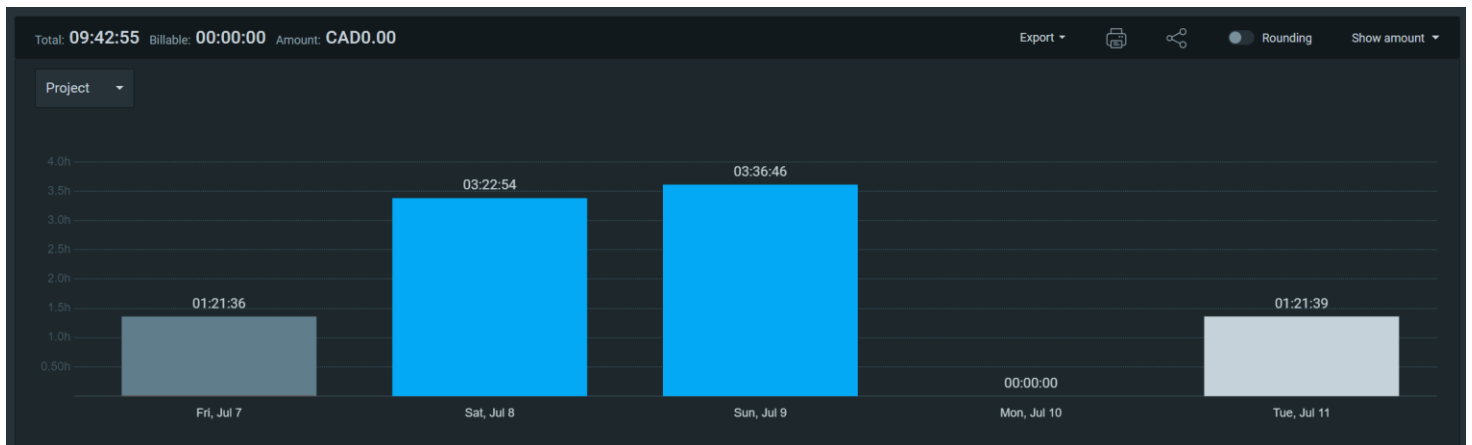

Fri July 7th

overall time spent: 10h

- Meeting with TA
- Fixed the drone workflow (it started failing when the database was renamed)
- Made more progress on add job - connected it with the backend, though styling still needs a little work
- Discussed what details we should send our client's IT people
- Peer Evals

+ 2 hours on Thursday july 6th that was not on the last report (reviewed more PRs and helped create reports)
